Election/Restrictions

1. The newly submitted claims 2-22 have been renumbered as claims 82-102, respective (See 37 CFR 1.126). Applicants are required to amend the claims and change the dependency of the claims in response to this Office action.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 82-89 and 97-102 (all in part), drawn to an antibody that recognizes the polypeptide of SEQ ID NO: 4, classified in class 530, subclass 387.1.
 - II. Claims 82-89 and 97-102 (all in part), drawn to an antibody that recognizes the polypeptide of SEQ ID NO: 8, classified in class 530, subclass 387.1.
 - III. Claims 90-96 (all in part), drawn to an inhibitor of binding of a GBS toxin to a mammalian GBS toxin receptor of SEQ ID NO: 4, classification depends upon the structure of the inhibitor.
 - IV. Claims 90-96 (all in part), drawn to an inhibitor of binding of a GBS toxin to a mammalian GBS toxin receptor of SEQ ID NO: 8, classification depends upon the structure of the inhibitor.
3. The inventions are distinct, each from the other for the following reasons. Inventions I-IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP §806.04, MPEP §808.01). In the instant case, the different inventions are drawn to completely different products, antibodies that recognize different polypeptides and inhibitors that inhibit binding of

Art Unit: 1646

a GBS toxin to two different GBS toxin receptors. These products have completely different biological functions which are not interchangeable and which require non-cohesive searches and considerations.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
5. Because these inventions are distinct for the reasons given above and the search required for a single group is not required for any other group, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48 (b) and by the fee required under 37 CFR 1.17 (I).
